Full stack web developer proficient in a variety of JS frameworks, front-end design, and database management. Highly adaptable and able to thrive in a dynamic environment whether working independently or with a team. A diversified background provides me with additional experiences, ranging from writing and public speaking to counseling and community service, to augment my technical skills.

TECHNICAL SKILLS

Programming / Web: HTML, CSS, Javascript, Jquery, AJAX, JSON, APIs, Node.js, Express, Sequelize, Mongoose, Handlebars.js, AngularJS, PHP

Database Management: MySQL, MongoDB

EDUCATION

Rutgers University	**Pennsylvania State University**
https://codingbootcamp.rutgers.edu	University Park, PA
New Brunswick, NJ	Bachelor of Arts, English: May 2003
Certificate, Full Stack Web Development: October 2016	

PERSONAL PROJECTS

Essentials: a mobile responsive full stack home and shopping inventory application developed as two versions based on separate technology stacks. Version 1 integrates a PHP & MySQL back end with a Jquery scripted front end while Version 2 features a MEAN (MongoDB / Express / AngularJS / Node) web stack.
Ver. 1 - https://essentialsapp.herokuapp.com **Ver. 2 -** https://essentialsmean.herokuapp.com

Destination: a mobile responsive Node application that retrieves real-time weather, traffic, and event information by integrating a variety of RESTful APIs and is programmed for user interaction through an AngularJS framework. **Project -** http://guarded-savannah-77228.herokuapp.com/

Solver: a full stack Node application developed to assist users in making decisions by utilizing Jquery scripting to calculate scores for possible options and assign a persistent rating to the user based on selected options and retrieving and modifying user data through a MySQL database. **Project -** https://rcbsolver.herokuapp.com

Cafe Novus: a mobile responsive website showcasing a modern and attractive UI intended to demonstrate front end HTML, CSS, and Bootstrap design capabilities. **Project -** https://quiet-earth-96619.herokuapp.com

EMPLOYMENT HISTORY

Web Developer, Grant Electrical & Plumbing – Teaneck, NJ 4/17 – 5/17
• Developed and maintained front end web assets for a major electrical and plumbing supplies e-commerce site through the X-Cart platform.
